**AMERICAN BENEFIT CORPORATION PARENT COMPANY ACQUIRES BENEFIT
ADMINISTRATION SOFTWARE COMPANY**

Charleston, West Virginia – April 8, 2016 – ABC Holding, Inc., the parent company of American Benefit Corporation (ABC), announced that it has acquired BICC Systems, Inc. (BICC), a full service management information systems company providing total software solutions for Taft-Hartley Benefit Funds, Third Party Administrators, Self-Administered Public/Private Sector Benefit Plans, and International Church/Non-Profit Benefit Plans.

The stock purchase of the software company fits into ABC Holding’s strategy of providing flexible administration models for self-administered plans as well as third-party administered plans.

“Our acquisition of BICC complements our overall strategy of providing flexible, market leading solutions to our clients,” said Ryan Jones, chief executive officer, ABC Holding Inc. “The relationship creates synergies in software development and deployment resulting in the rapid delivery of best of breed solutions.”

Phil Kotas, founder of BICC Systems, Inc. stated his approval of the acquisition, “I am pleased to announce this acquisition which ensures the long range support and enhancement of the BICC Benefit Fund Administration System for current and future clients. ABC shares our view regarding our critical role in serving our clients.” Phil Kotas will remain with BICC Systems in his current capacity.

AMERICAN BENEFIT
CORPORATION

AN ABC HOLDING COMPANY

About BICC Systems, Inc.

In 1977 BICC was formed in Chicago, Illinois with a commitment to create and organization to enable benefit fund administrators to meet high-level administration requirements through the delivery of robust software solutions on a scalable and secure platform.
